Non-invasive / Effective results

Fast treatment times

Pain-free / No downtime

£6000

HIFU

The HIFU Pro is a next-generation HIFU device for skin lifting & targeted fat reduction using the latest clinically proven HIFU Technology to treat both face & body concerns, actively endorsed by renowned surgeons as a safe alternative to going under the knife.

The HIFU Pro uses High-Intensity Focused Ultrasound, the latest safe and effective non-surgical technology for treating both face and body concerns. While The HIFU Pro face is the latest non-surgical facelift treatment to both lift and tighten loose or sagging skin on the face and neck the HIFU Pro body is used to target and reduce specific areas of fat.

What are the Anti Aging effects of the HIFU PRO ?

- **Results in the formation of new collagen to lift and tighten the skin**
- **Skin rejuvenation**
- **Brow and jowl line lifting**
- **Can treat both the face and neck**
- **One off treatment**
- **Safe alternative to surgery**
- **Results develop over 2-3 months and last for up to 24 months**

£5000

Derma-Pro

A powerful new force in non-surgical skin rejuvenation. Advanced cutting-edge device combining Microneedling & Radio Frequency (RF) technology to effectively treat a large number of facial and body concerns, with amazing results.

Microneedling / RF is the latest up-and-coming solution for the ultimate 'non-surgical facelift' and is in extremely high demand after the extensive press coverage that the treatment has received throughout the press, with celebrities raving about the treatment. It is a minimally invasive treatment that greatly reduces fine lines, wrinkles, and lifts skin, whilst promoting collagen and elastin production.

What are the Benefits of the Derma Pro

- **Highly Affordable new treatment**
- **Great earning potential**
- **Potential new client stream**
- **Can target multiple areas**
- **Easy to operate**
- **Minimal consumables / Affordable treatments**
- **Proven technology**
- **Non-invasive / Effective results#**
- **Insulated needles for equal delivery to both the dermis and epidermis**

£5000

ThermaLift

Introducing Thermalift to your salon or clinic can elevate your services and attract a whole new clientele. This non-invasive skin tightening treatment uses radiofrequency technology to stimulate collagen production, offering clients visible anti-aging results without surgery or downtime.

Why add Thermalift?

**In-demand, pain-free treatment that enhances your service menu
Stay ahead of the beauty curve—Thermalift isn't just a treatment, it's a business booster.**

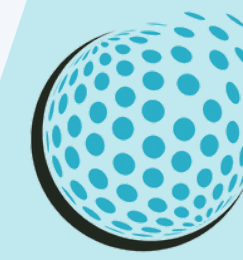

What are the Benefits of the Therma-Lift

- **Highly Affordable new treatment**
- **Great earning potential**
- **Potential new client stream**
- **Can target multiple areas**
- **Easy to operate**
- **Minimal consumables / Affordable treatments**
- **Proven technology**
